

## Godfrey Memorial Library AGBI Lookup Form

American Genealogical Biographical Index (AGBI) is the largest and most important genealogical reference set ever published and clearly the best starting point to find any early New England settlers. AGBI is an index containing more than 4 million names from over 800 books from our original collection and more than 2 million records from the Boston Transcript weekly genealogy column. Many of these books are out of print and are not available online. Our researchers will locate the reference to your ancestor and e-mail you a digital copy.
